

WHO WE ARE...

TECHPROCURE distributes industrial products, replacement parts and related supplies such as bearings, mechanical and electrical power transmission, industrial automation, hydraulic and pneumatic components, industrial supplies and products to our Customers globally.

Our expertise in Global Sourcing and Procurement allows us to find the right solution for our Customers.

Our people have more than 15 years of global market experience with an Engineering background and Commercial skills that empowers them to quickly understand the needs of our Customers and offer Adequate Solutions, Technical Advice and Cost-Savings.
